Dreamscapes & Shaped Dreams will highlight egg tempera paintings, silverpoint drawings, and watercolors by Eileen Kennedy and digital art by Lynne Kennedy. Although we are cousins, grew up around the corner from each other and the site of this exhibition, this is our first joint artistic endeavor. My techniques are ancient and Lynne's are modern; however, we both approach our work in a meticulous way, weaving tales of mysterious journeys, memories, dreams and other stops along the way. We hope you'll come to see for yourselves and bring your friends and family--all are welcome. We'd also appreciate your sharing this with other kindred souls.
